

ATLANTA ASTRONOMY CLUB NEWSLETTER

MEETING - 8:00 pm, Bradley Observatory, Agnes Scott, Friday, Jan. 15

PROGRAM - This month, Dr. Bob Hyde, our meeting host and Director of the Bradley Observatory, will present "Black Holes and White Dwarfs", highlighting a paper which he is presenting at Emory next month. This would be an excellent time to find out the professional view of these aspects of stellar evolution.

OBSERVING SESSION - Reports of the observing sessions are starting to become monotonous - rained out. The report of the December session is no exception. New moon occurs at 4:56 UT on January 25. We will try a session on January 22/23. Remember that the Club observatory is available every night.

ODYSSEY - The 13.1" f/4.5 Odyssey will be presented to the membership during the January meeting. I will demonstrate how to put it together and so forth. It is already obvious that we need a finder scope (or a convenient way to aim). If you have a spare finder, we could use it.

CLUB ROSTER - Attached is the Club Roster, effective January 1, 1982. Please notify me of any corrections.

NEW HORIZONS - Subscriptions to New Horizons, the official newsletter of the Southeast Region is \$3.00. Address is New Horizons, P. O. Box 546, St. Augustine FL 32084.

FOR SALE - Randy Falkenberg wants to sell his Edmund Scientific 4 1/4" f/10 with equatorial mount. Contact Randy at 448-5087 or see the telescope at the meeting.

NEXT MEETING - Friday, February 19, 8:00 pm, Bradley Observatory. Topic - "Show and Tell" by members. As announced in the Newsletter for the past several months, we are devoting the meeting to slides/photographs taken this year. If you want to be a part of the program, contact George Reight at 633-1202, soon.
